

As a participant in the Verizon Pension Plan, you are eligible for a lump sum distribution. The value of your lump sum distribution is based on the interest rate in effect as of your Pension Commencement Date that will produce the highest lump sum benefit for you. Locate the pension plan you are eligible for in order to determine the interest rates that apply to you. Next determine your Pension Commencement Date to view the interest rates in effect at that time. If an interest rate is not available currently you will see an N/A next to it.

Please note that if you are eligible for the PBGC rate, the lump sum value of your benefit is first calculated using the 100% PBGC rate to determine if the value of the lump sum is greater than \$25,000. If the value is greater than \$25,000, the 120% PBGC rate is used for the PBGC calculation.

Interest Rates	If Your Pension Commencement Date is in November 2017	If Your Pension Commencement Date is in December 2017	If Your Pension Commencement Date is in January 2018	If Your Pension Commencement Date is in February 2018
Verizon Management Pension Plan & Verizon Pension Plan for West Associates

³Quarterly GATT Rate does not apply to the Verizon Pension Plan for West Associates

Pension Protection Act (PPA) Interest Rates

The table below shows PPA interest rates for 2018. The PPA calculation uses three segment rates derived from a corporate bond yield curve.

Each segment rate is used to determine the present value of a participant's single life annuity benefit for a specified period. The first segment rate applies to the first 5 years after pension commencement; the second to years 5.5 to 20; and the third to years 20.5 and beyond.

PPA Interest Rates	If Your Pension Commencement Date is in November 2017	If Your Pension Commencement Date is in December 2017	If Your Pension Commencement Date is in January 2018	If Your Pension Commencement Date is in February 2018
---------------------------	--	--	---	--
